

coming through the gates of emptiness

young ones
 innocent or not
 you are older
 than i will ever be
 young ones
 i can only guess
 how the walls must be staring you
 to death
 anyone can say never surrender
 but will you still listen
 when someone says
 turn yourself in
 within
 your turn within
 will let me see you on the outside
 i want to see you on the outside
 of this prison mechanism
 please don't get caught
 like most of us in escapism
 know you can't follow me
 you can't follow anybody
 so please follow through
 i want to see you coming through
 your gates of emptiness
 i want to meet you
 on the otherside
 the *motherside*
 you the freelance

 in the
 mean time
 open your inside eyes
 close your outside eyes
 remember
 you can't
 cheat
 your
 blindness
 on the inside
 lift the curtain
 shift some scenery
 like the blind man

 you are jet master baritone
 so when you burn
 try to learn how to hover
 because in dynamic stillness
 you will discover
 the dust blossoming
 yes it can be bitter
 but it's already better
 better than your best thinking
